Dear friends and neighbors,

We would like to welcome you to another Cedarflo Angus production sale. The year has presented lemons, you will find lemonade in the offering. Calving ease with performance has always been our mantra, we aim to please. A large number of our animals are recommended for heifers. Our sires have been selected for not only calving ease but their exceptional maternal traits, females first, that's what makes a herd.

Diverse genetics are the backbone to healthy, performance cattle. It's the same reason you don't go to the family reunion looking for a date. Line breeding will produce performance cattle, but they have repercussions. Dad always said, line breeding will produce the best and the worst. We want to be solid, not extreme. Our philosophy is to improve upon the previous generation, it keeps us moving forward. We hope you find confidence in our diverse genetics and will find a place for them in your program.

These animals are ready to perform. As always, every animal sold is guaranteed to be a breeder. Please reference our guarantee in the coming pages, it's straightforward and fair. Let us know if you feel otherwise. Dad said that when he bought a bull and it didn't work out he didn't feel like credit in a future sale or a pick of the leftovers satisfied his

In memory – Dave Fordahl

*“He was as common as the grass on his land,
and never yearned to be more.”*

Welcome

Cedarflo Angus

immediate need. We agree. We want you to know that we appreciate your business. Feedback on our animals is always welcome.

The animals can be viewed at the ranch anytime until Monday Feb. 20, at which time they will be transported to Lemmon Livestock. They can be viewed there until sale time. We hope you can find the time to inspect them before the sale. We fully understand if you've got snow to push, heifers to calve or just need 20 minutes on the couch before the next business calls. If you're not able to attend please watch/bid online at cattleusa.com. Instructions are on lemmonlivestock.com. If you have questions, please contact us and we will do our best to help. You can also bid by phone either through the sale barn or by contacting us ahead of time. Ultrasound and yearling data will be distributed sale day or on our website, www.cedarfloangus.com, as it is available.

I've referenced a few "Dad said ..." in previous paragraphs. Fortunately, it's not just catch phrases but ideals that stick with us. As most may know, unfortunately Dave (Dad) is no longer with us. Someday cancer won't mean pain, fraility and the end. Here's to that day. Dad ran Cedarflo Angus with honesty, determination and to the best of his ability. Never a social person, he let his actions and cattle speak for themselves. However, he could bend your ear for an hour if you ventured on our place. Dad told me last May that the only thing he wanted to do was "... see this place to the end." Hopefully he's still watching because we're not done yet.

See you sale day,
Jeremy Fordahl

Cedarflo Angus Ranch

Annual Production Sale

Wed., February 22, 2017

Registered Angus Since 1948 • Performance Tested Since 1968

We are not responsible for accidents or injury. All persons attending the sale do so at their own risk, legal or otherwise.

Auctioneer:

Scott Weishaar, Sentinel Butte, ND (701) 872-5299

Lemmon Livestock Inc.:

Paul Huffman (605) 374-3877 • (800) 822-8853

Ring Service:

Rowdy Benson, Tri-State Livestock News (605) 430-2942

Mason Deitterle (605) 788-2927

Sale Day Phone:

Lemmon Livestock Inc. (605) 374-3877 • (800) 822-8853

PRE-SALE INSPECTION:

At ranch until Feb. 20. Directions: 13 miles north of Highway 8 and 12 Junction to 14th Ave. NE; or 13 miles south of Highway 8 and 21 Junction to 14th Ave. NE, then 3 miles west and 1/2 mile south. Bulls will be at Lemmon Livestock from Feb. 20 on.

HEALTH:

All animals have gone through a comprehensive health program. Health papers will be furnished for cattle as needed.

FEMALES:

All females sell as purebred, unregistered animals. Registration papers are available at an additional cost.

ULTRASOUND AND YEARLING DATA:

Available sale day or on our website as soon as the information is available.

DELIVERY:

Free delivery of bulls up to 300 miles or deduct \$100 if you take possession sale day. Free keep on bulls until April at which time we will start deliveries.

DEVELOPMENTAL DUPLICATION (DD):

Developmental Duplication is a genetic condition inherited as a simple recessive trait. Animals with the potential to carry this gene have been tested. Any carrier of the gene will be noted with DDC.

Complimentary Lunch Before the Sale
Please bring this catalog with you sale day.

Thank you and see you at the sale!

TERMS AND CONDITIONS:

Terms of the sale are cash. All animals sell under the terms and conditions as adopted by the American Angus Association. Statements made sale day take precedence over printed information.

CEDARFLO GUARANTEE:

Each bull sold is guaranteed to pass a breeding test administered by a licensed vet. We adhere to our vet's recommendation that if an animal should fail a breeding exam, we do ask that it be retested. The retest is done to prevent external factors, such as weather, from influencing the sample taken. If the animal fails the subsequent test, we offer you two options. Sell the animal under your name and we will provide you with another bull, if available. Or sell the animal under your name and we refund you the difference between pound price and sale price this year. We do not guarantee against injury. Unfortunately there are too many factors out of our control that may influence the health of an animal. If you have any questions regarding this policy, please don't hesitate to contact us. Thank you.

Set up an account

Setting up an account is a simple two-minute process.

1. Look for the log-in area on the upper left portion of the screen.
2. Find the blue button labeled "Register to View"
3. Fill in the form with your name, email, state, username and password.
4. Press the proceed button at the bottom of the page.

Any time you come back to CattleUSA just enter your username and password to log-in and watch auctions.

Get approved to buy

Each auction approves its own buyers, no buyers are approved by CattleUSA. This is done for your privacy and security. Your buyers information is kept private and is only released to the auctions you choose. In order to obtain approval to buy at an auction you will need to submit your contact information to each auction you wish to buy from.

1. Log in to CattleUSA.
2. Push the Submit button next the auction you wish to be approved at. The first time you do this, a form will pop-up for you to fill out your contact information. Fill out your information then push the button at the bottom of the form to continue.
3. You have now sent your information to that auction. The auction will now be able to find you in their data base and approve you to buy. If you would like to be approved at other auctions push the submit button next to each auction you wish to be approved at. Your information will be forwarded to those auctions only.

Auctions do not have access to your information until you send it to them.

A wide topped, clean fronted calving ease sire. His progeny has displayed exceptional growth with a top 3% WW EPD and 1% YW EPD nationally. A large scrotal and a high heifer pregnancy EPD prove he is a breeder and a keeper. Highly maternal genetics accentuate this bulls well rounded package. A truly exceptional animal, you should expect great things from his progeny, we do.

Comrade is the definition of calving ease. A Consensus 7229 son that improves upon his sire with a smoother shoulder and longer length. Couple those characteristics with a short gestation and a moderate frame and you get a heifer bull deluxe. Comrade has proven to be extremely feed efficient (+6 EN\$), while still producing excellent marbling.

All In is a performance bloodline with a virtually unheard of +12 CED (Calving Ease Direct). Cleaner fronted, tighter sheathed and squarer hipped than Ten X, he eliminates all of his sires downfalls. His progeny express more frame size that is accentuated by their eye appeal. All In encompasses what we should expect from the Angus breed.

Basin Excitement is a clean-fronted, deep-bodied performance sire that was chosen for his outcross pedigree. One of the few Angus sires to register a negative birth epd with a YW of over 120, a true curve bender. Progeny are moderate framed, heavily muscled with capacity for growth. Excitement is stamping his place in our herd, we feel confident his offspring will work in yours.

Looking to add some length? This Really Windy/ Aberdeen bull was our selection from Maher's sale in 2015. A true outcross for us he is proving his worth. He's an athletic bull that displays extra frame. His excellent disposition makes him a pleasure to work with. Progeny are stylish and show true promise, reference Lot #46 in the sale, a real eye catcher.

205 day WW of 823. His mother does this every year.

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.
